**Title : Microsoft Dynamics NAV
2013 Core Setup and
Finance**

Version : DEMO

1. Your client uses a dimension named ITEM CLASS with different dimension values to define different types of items on sales postings. You need to modify the dimension settings so that sales-related ledger entries contain information on the type of item sold. Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)

- A. Add a unique ITEM CLASS dimension value code to all individual item category cards.
- B. Set the Dimension Value Posting field for the ITEM CLASS dimension code to Code Mandatory for the sales-related G/L account cards.
- C. Add a unique ITEM CLASS dimension value code to all individual item cards.
- D. Set the Dimension Value Posting field for the ITEM CLASS dimension code to Same Code for the sales-related G/L account cards.

Answer: B, C

2. You need to configure Microsoft Dynamics NAV to register when specific users log on and for how long they stay logged on. Which page should you use?

- A. Users
- B. Application Setup
- C. User Setup
- D. Permission Set

Answer: C

3. Which statement about the reason code on a sales credit memo is true?

- A. It determines the location code for item returns.
- B. It is transferred to G/L, customer, and item entries and used for analysis.
- C. It is required when posting a sales credit memo.
- D. It is transferred only to the posted sales credit memo and used for filtering and analysis.

Answer: B

4. A G/L account is used in a customer posting group. Which statement is correct?

- A. Generally these G/L accounts are set up to allow direct posting as well as indirect posting.
- B. Generally these G/L accounts are set up to allow only direct posting.
- C. Generally these G/L accounts are set up with the Blocked field enabled to prohibit manual posting.
- D. Generally these G/L accounts are set up to not allow direct posting.

Answer: D

5. When posting a sales order, a user receives the following error message: "COGS Account must have a unique value in General Posting Setup: Gen.Bus.Posting Group=NATJONAL, Gen.Prod.Posting Group=RETAIL. It cannot be zero or empty." You need to resolve the error message by adding a ledger account number in the COGS Account field. Which page should you use?

- A. General Product Posting Group
- B. General Posting Setup
